-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1711

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 8, 2003 has been entered.

2. Claims 1, 2, and 4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Firstly, within claim 1, the use of the word, "type", within the language, "solvent-free type laminator", renders the claims indefinite, because the word so extends the scope of the term that it is rendered indefinite. One cannot determine with certainty exactly what laminators are encompassed by the language.

Secondly, within claim 1, the language, "... in a solid phase modified with an octadecyl group, ...", is not understood. It is unclear how this language relates to the rest of the language of the claim.

Lastly, the subject matter of claim 2 fails to further limit claim 1, because the open language, "comprises" and "comprising", is broader in scope than the more restricted language, "consists essentially of", of claim 1. Furthermore, it is unclear if the ethylene glycol and/or propylene glycol are present in addition to the polyester polyol or if the glycols are the reactants for making the polyester polyol.

3. Claims 1, 2, and 4 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not

Art Unit: 1711

described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Within claim 1, it is unclear how to interpret the language, "... in a solid phase modified with an octadecyl group ...". It is unclear how the language relates to the rest of the claim.

4. The prior art rejection has been withdrawn in view of the amendments to the claims and the 37 CFR 1.132 declaration of August 19, 2004.

Any inquiry concerning this communication should be directed to R. Sergent at telephone number (571) 272-1079.
